Explanatory note

This amendment would ensure that Resolution V. 7. of Billet d'État XVIII of 2022 is not rescinded. That resolution reads as follows:

“7. To direct the Policy & Resources Committee to lead a review of the options for any bespoke arrangements that ensure those who are new to a community, and who may only be staying and working in that community for a fixed period rather than on a permanent basis, access public services in a fair and transparent way, and to report its conclusions and make any recommendations to the States before the end of 2023 and in conjunction with the Committee for Health & Social Care, to examine through suitable external advice whether there is scope for reducing the costs to the tax payer of any increased population's access to health and social care services via a commercially provided compulsory health insurance scheme, and to report back to the States of Deliberation thereon not later than the second half of 2023.”
