Explanatory Note

Alderney has significant revenue potential in renewable energy as a result of its tidal and wind resources and as such, through working together on the development of infrastructural schemes, it aims to become a net contributor to the public purse and therefore a major contributor to the Bailiwick.

In addition to both Alderney and Guernsey's thriving economic sectors (Finance & Gaming) the Bailiwick Commission's outcomes must strive to deliver a platform for the Bailiwick to prosper, grow as a whole, and explore additional opportunities to increase tax take.
