THE STATES OF DELIBERATION
of the
ISLAND OF GUERNSEY

COMMITTEE *FOR THE* ENVIRONMENT & INFRASTRUCTURE
AND
STATES' TRADING SUPERVISORY BOARD

GUERNSEY ELECTRICITY - ELECTRICITY STRATEGY IMPLEMENTATION PROGRAMME

The President
Policy & Resources Committee
Sir Charles Frossard House
La Charroterie
St Peter Port

9th November, 2026

Dear Madam,

Preferred date for consideration by the States of Deliberation

In accordance with Rule 4(3) of the Rules of Procedure of the States of Deliberation and their Committees, the States' Trading Supervisory Board and the Committee *for the* Environment & Infrastructure (the joint Committees) request that the Propositions and Policy Letter titled 'Guernsey Electricity – Electricity Strategy Implementation Programme" be considered at the States' meeting to be held on 16th December, 2026.

One of the main purposes of the Policy Letter is to establish the policy, governance and funding framework required for progression of the interconnector business case. Timely consideration will provide certainty that expenditure necessary to progress the technical, commercial, legal and financial workstreams can be committed, enabling the options assessment to continue and the business case to be finalised. It will also strengthen confidence amongst external stakeholders and delivery partners. A delay would risk extending project timelines and reduce the opportunity to realise the earlier commissioning benefits that could potentially be available if the Guernsey-Jersey 2 interconnector option emerges as the preferred solution.

The joint Committees therefore request that the Policy Letter and Propositions be considered at the December 2026 Meeting.

Yours faithfully

Committee *for the* Environment & Infrastructure:	**States' Trading Supervisory Board**
