

**Response to a Question Pursuant to Rule 14
of the Rules of Procedure of the States of Deliberation and their Committees**

Subject: Contribution from the Cannabis Related Sector
States' Member: Deputy G St Pier
Date received: 7th July 2026
Date of reply: 15th July 2026

Question:

Could the Committee please populate the attached table setting out estimates of revenue receipts in 2025 from the cannabis-related business sector, distinguishing between those engaged in CBD- related products and those engaged in medicinal cannabis?

Answer:

Revenue Service records do not distinguish between those engaged in CBD related products or those involved with medicinal cannabis. In addition, the number of cases identified is minimal, and to disclose any information in respect of those entities (including expected tax receipts), would risk the identification of the relevant entities and/or individuals.

As such, the Committee is unable to provide the information as requested.
