

**REPLY BY THE PRESIDENT OF THE COMMITTEE *FOR THE*
ENVIRONMENT & INFRASTRUCTURE
TO QUESTIONS ASKED PURSUANT TO RULE 14 OF THE
RULES OF PROCEDURE BY DEPUTY INDER**

Question 1

In Deputy Roffey's statement he made reference to the 7 or 8 homes situated on Guernsey Electricity Land at Northside; he thought there were limitations on use and said he believed they could only be used by Guernsey Electricity Limited. He further made reference to an Environmental Health report, whose mandate lives with the Committee for Environment and Infrastructure.

Could the President publish the most recent report from Environmental Health on the units on the GEL land?

Accepting that Deputy Roffey was not sighted on the referenced Environmental Health report; could the President confirm if the units can only be used for GEL workers.

Answer

The Office of Environmental Health and Pollution Regulation has not imposed any conditions relating to who may occupy the properties in question. Providing the properties are fit for habitation, it is the decision of the owner how they will be utilised.

The Office of Environmental Health and Pollution Regulation has corresponded with Guernsey Electricity in relation to the properties but has not issued a report. There is, therefore, no report to disclose.
