

Policy & Resources Committee

Response to a Question Pursuant to Rule 14 of The Rules of Procedure of the States of Deliberation and their Committees

Subject: TRAVEL COSTS OCTOBER 2020 TO MARCH 2024

States' Member: Deputy Chris Le Tissier

Date received: Tuesday 11th June 2024

Date acknowledged: Thursday 13th June 2024

Date of reply: Wednesday 10th July 2024 (Extension granted by the Bailiff on 18th June 2024)

QUESTION 1

In respect of each month during the period October 2020 to March 2024 how many flights paid for by the States did each political member of the Policy & Resources Committee take and to which destinations and what was the class of travel for each trip & member?

The full data set is provided in the appended Excel spreadsheet¹ up to and including March 2024.

The travel undertaken almost entirely relates to external relations activity, pursuant to the mandate of the Policy and Resources Committee. This includes: defending and promoting the islands interests as well as its relationship with the UK and its constitutional relationship with the Crown; developing economic links and promoting international trading relationships; as well as asserting Guernsey's international identity.

QUESTION 2

In relation to question 1, what were the departure and return dates in respect of each member's trip from Guernsey, identifying which if any members extended their stay beyond States business for private/personal reasons?

The full data set is provided in the appended Excel spreadsheet.

Deputy Helyar extended his stay on Alderney on three occasions, identified in the data enclosed, and each time this was at his own expense.

¹ The Excel spreadsheet was sent to the questioner but cannot be uploaded to gov.gg. However the data in the spreadsheet is the same as the attached tables (workbooks 1 and 2)

Deputy Brouard has advised that he occasionally extended his stay at British Irish Parliamentary Assembly (BIPA) plenaries at his own expense. The data provided does not suggest that this included BIPA plenaries between October 2020 and March 2024.

QUESTION 3

What were the dates of the event/meeting?

The dates of each of the meetings in question are included in the appended data set.

QUESTION 4

The same questions 1, 2 & 3 applies, how many Civil Servants and/or advisors accompanied political members on each trip to include departure/return/meeting/events dates?

The full data set is provided in the appended Excel spreadsheet listing where a civil servant travelled from the islands to be present. Where a civil servant was not necessary this has been itemised.

QUESTION 5

Which hotels paid for by the States did each political member of the Policy & Resources Committee stay and for which nights during October 2020 – March 2024.

The full data set, including detail of the hotels used, is provided in the appended Excel spreadsheet.

QUESTION 6

What was the total cost of air fares, hotels and any other expenditure, including any standard day allowances in relation to the out of the island trips representing the States for each trip taken during the period October 2020 – March 2024 by each political member.

The full data set is provided in the appended Excel spreadsheet.

Most flights and accommodation are booked through the States' travel system. This type of cost is contained in Workbook 1.

Workbook 2 contains all the expenses data in full. This also includes some travel and accommodation data where it was not possible to book through the States travel system. The way this data is recorded and extracted from the SAP data base is only by "posted date", i.e. the date it is reconciled onto the States' accounts, not by purchase date. Due to the volume of data it has not been possible to allocate expenditure to a particular person or a particular trip in many instances. Where it has been possible to provide clarity, this has been included.

QUESTION 7

What 'day allowances and other expenditure did each member receive for each trip during the period October 2020-March 2024?

Please see the answer to question 6 above.

No "day allowances" were claimed in respect of travel. Expenses are claimed on a reclaimed cost basis.

QUESTION 8

The same questions 5, 6 & 7 above applies to Civil Servants and/or advisors accompanying political members on each trip October 2020-March 2024.

Please see the answer to question 7 above.

QUESTION 9

In relation to previous Rule 6 (now numbered 11) questions on each members travel and expenditure during 2011 Deputy Trott as Chief Minister wrote '*in the spirit of moving towards more open and transparent Government, it is intended that information of this type will be provided as a matter of course in the next administration*'. As this didn't happen questions were repeated in January 2015 addressed to Deputy Le Tocq as Chief Minister, when replying he stated 'The Policy Council has no objection to the general publication of Deputies travel expenditure when representing the island outside the Bailiwick on a regular basis and that an appropriate frequency would be annual publication. As Deputy Trott & Deputy Le Tocq both as Chief Ministers at various times sought publishing States members travel details as above, and neither have pursued this happening, will the President of Policy & Resources Committee give assurances in the interest of transparency and accountability an annual detailed report covering the above will be published in the public domain, highlighting each States members travel details, costs and the reason for the trip?

The Policy & Resources Committee agrees that the transparency of taxpayer's money is desirable, but the level of detail needs to be proportionate to the aim. The expenditure on external travel, relating to external relations activities, is included in total within the External Relations reporting in the annual accounts.

The collation of this data set from voluminous data records and paper record is time consuming and has taken officials a significant volume of time across the organisation, including for one official in external relations over 35 hours², to produce this information in

² This represents one full week of an full time equivalent (FTE) post.

this format for the Policy & Resources Committee. The estimated officers' time across the Policy & Resources Committee to generate this information response is just under 80 hours. In order to meet the Rule 14 timelines, which the Bailiff agreed to extend to 30 clear days, has necessitated the use of staff time out of hours without pay/time in lieu in order to ensure that other pressing priorities continue to be met, including the preparation for HM The King's visit and the UK engagement after the UK's General Election.

The Committee is of the view that publishing this level of detail on a regular basis is not a good use of staff resources or taxpayers' money given the relatively small expenditure in respect of the overall Policy & Resources budget and specifically the External Relations budget. Travel costs have come to an average of £26,000 per annum over the period. The Committee would suggest limiting the report to long haul flights or any instances where travel expenditure has clearly exceeded £1,500 per person, where demonstrating value for money would have the greatest benefit in terms of transparency compared to the administrative burden of collating the data.

QUESTION 10

Would you agree that changes need to be made and that in the interest of transparency and accountability States members trips away on States business should be circulated to all Deputies within a reasonable time after the trip?

Please see the answer to question 9 above.
